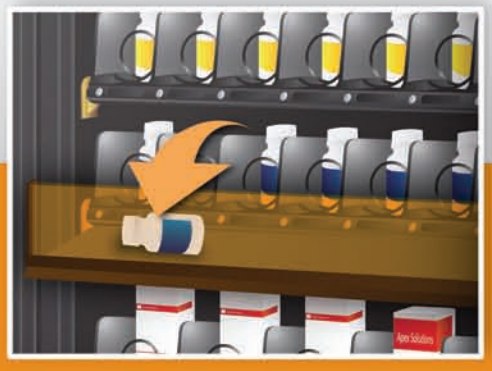
For Fragile or Delicate Items

Apex exclusive Soft Touch™ elevator delivery system is available for sensitive applications.



Our Customers Say It All — Worldwide, More Companies Choose Apex Edge Series Point-Of-Use Dispensing Systems Than All Others… *Combined!*

Breakthrough Technology.

Breakthrough Pricing.

Track, Manage and Control Critical Materials 24/7/365

Automate Dispensing and Ordering Replenishment Stock

Apex Edge Series Secure Dispensing Systems were developed to provide Value-driven, Lean solutions for dispensing a wide range of critical supplies, parts, tools and materials.

Since its introduction just a few years ago, the Edge Series has become the worldwide leader in the automatic dispensing field. Today, more companies choose Apex Edge Series than all other options…combined! Why? Value, Dependability, Versatility. Each month, Apex systems faultlessly process tens of millions of dispensing transactions for large and small companies in virtually every industrial, institutional and service sector.

Simplicity Is The Key. It's An Internet Appliance.

Simple, straightforward, and easy-to-use, Apex Connect n' Go™ Technology makes implementation a breeze. Just connect to an Ethernet or wireless Internet Connection, plug into a power outlet and you're up and running. There is no software to install and nothing for your IT Department to support.

No Complicated Or Expensive Implementation Processes.

In the past, implementing automated dispensing systems could be expensive and frustrating. No more. The Edge Series makes it quick and painless.

Why Pay High Prices For Functionality You May Never Use?

With Apex Edge Technology, you get the dependable results you want, but you don't pay for functionality you don't want and may never use. No complicated data replication schemes. No Hard Drives to crash. Just performance.

Implementing Apex Edge Series Is Fast, Easy And Often Leads To Payback Measured In Days And Weeks, Not Years And Years*

The Edge AutoStore accommodates large or bulky items and even permits check out and return functions.

* *Ask About Our Attractive Lease Terms. Let Your Machines Pay For Themselves Through Savings They Generate.*

Three Great New Additions to the Edge Series

Featuring Apex exclusive Soft Touch™ Elevator Delivery System

Ambient	Edge 5001 STA	Ambient Temperature
Refrigerated	Edge 5001 STR	Refrigerated to 32° F, 0° C

Standard Edge Delivery System — Soft Touch Elevator Delivery System Not Available

Frozen	Edge 3001 F	Frozen to -12° F, -24° C

Amazingly Versatile Dispensing Capabilities

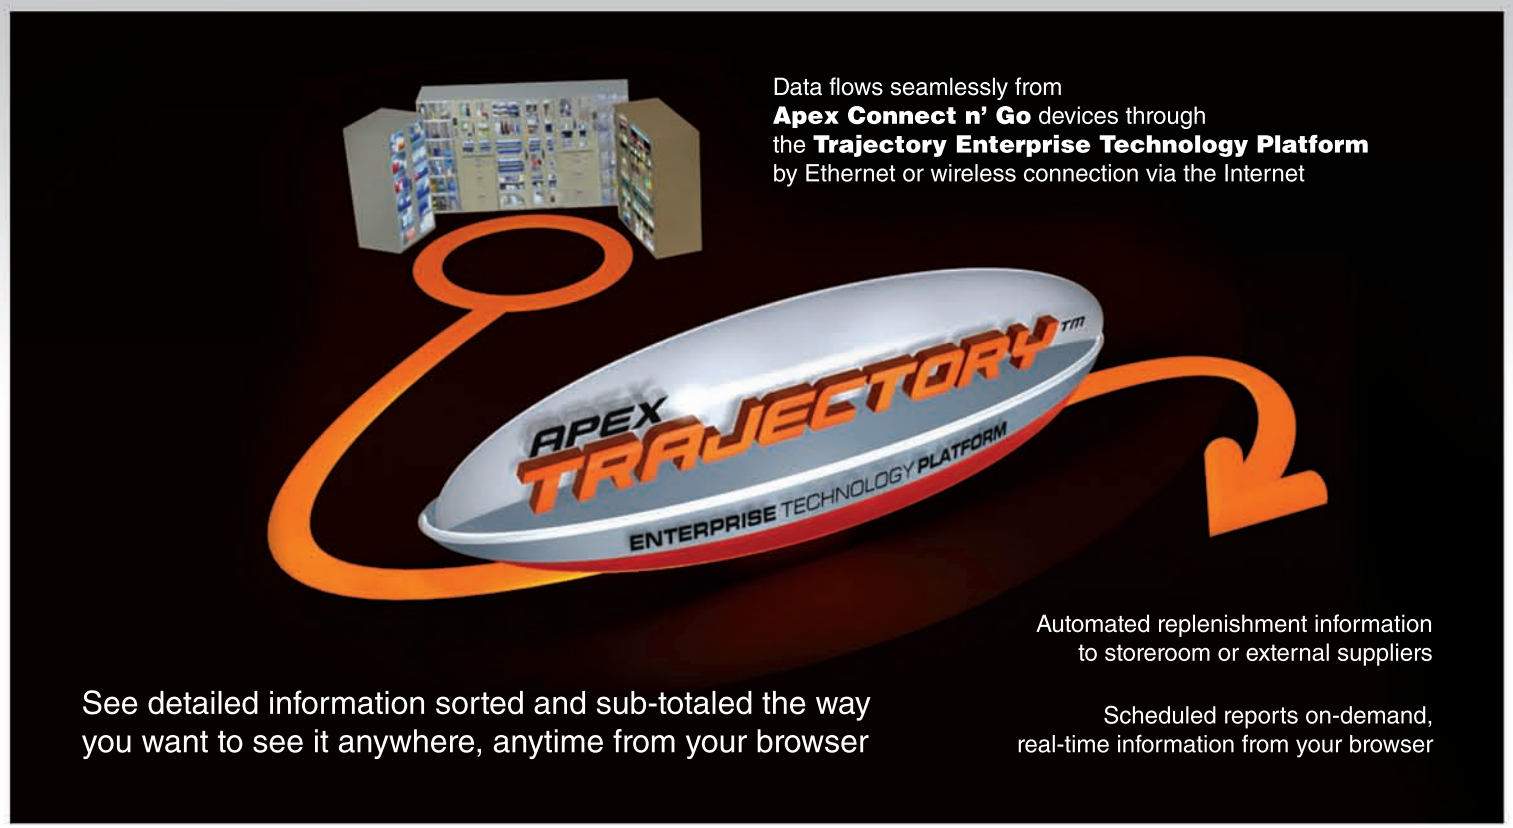
Apex EZ Configuration system lets you move tray dividers, change tray heights, interchange helixes, add spacers, risers and adapters to accommodate an incredibly wide range of items — large and small, round, square or irregular shapes.

The Edge Series can be configured to provide faultless dispensing for the most demanding applications.

Here's How It Works

1) Make a selection
2) Apex Soft Touch™ retrieval tray automatically moves into position
3) Your selection is dispensed
4) The dispensed item is received gently into the retrieval tray
5) The Soft Touch™ elevator automatically moves to the delivery area
6) A security panel secures the delivery area
7) The display indicates that your item is available for pick up
8) Reach into the delivery bay
9) Remove your item

All Apex Edge Series Models are Internet Appliances — They are Microsoft Windows-free — No Software Reboots, No Data Corruption, No Viruses.



Best of All, there is no software to install on your site, no servers to buy or maintain and nothing for your IT department to support. The Trajectory Enterprise Technology Platform is a secure, robust Enterprise-level cloud-based service. All you need is a wired or wireless connection to the Internet and you're set to go. Apex Trajectory Enterprise Technology Platform provides proven enterprise-grade Platform as a Service (PaaS). Built on the most powerful and robust enterprise technologies available — Oracle, IBM Websphere and J2EE — Trajectory delivers a secure software and data management solution for the most demanding applications.

Apex Edge Series Locker Systems can manage your equipment, tools, measuring instruments, hand-held devices, laptops, tablet computers, radios and other assets: Check out/Check in functionality, electronic audit trails and instant search capabilities.
