Unit Shown: 1000 KVA Rectifier
Input: 4,150 Volt 3 Phase Primary
Output: 0-600 Vdc @ 1650 A

## AC to DC Rectifiers

We offer Custom Designed Rectifiers that drive all types of Electrical Loads. From 1 KVA to 15,000 KVA our AC to DC six (6) and twelve (12) pulse units, are built from only the best materials. Conservatively designed and well fabricated is why our units perform under the harshest conditions and enviroments.

Applications Include:

- High Current Rectification
- High Voltage Rectification
- Mining and Smelting
- Induction, Glass and Furnace Heating
- Motor Drive
- Electro and Petro Chemical
- Welding & Plating
- and many others….

Features Include:

- Voltage Range 120 V – 25 KV
- Current Range 10 A – 50,000 A
- Oil Filled, Dry, Water and Air cooled
- All Copper Wound Primary and Secondary

Quality & Reliability & On Time Delivery
